
BRANDLE OS – PART III IMPLEMENTED

“Protection begins with preparedness.”
“If it’s not logged, it didn’t happen.”

PART III – 4TRESS + V4ULT + UX (QUALITY PASS)

› SOURCE INGESTED

..... Part 3 of 5.md (ENGINE IV: 4TRESS, V4ULT upgrades, UX standards)

› BUILD STATE

..... Part III integration build initiated in Lovable

..... projectId 496b1f76-5107-4f42-9f0e-95b896bcf47d

..... url lovable.dev/projects/496b1f76-5107-4f42-9f0e-95b896bcf47d

› ENGINE IV: 4TRESS – PROTECTION ASSISTANT (NON-LEGAL)

..... Safety framing baked into UI

..... ☐ NOT legal advice ☐ no guarantees ☐ no threats ☐ no C&D generation

..... Core screens (functional)

..... 1) Readiness Assessment (0–100 + confidence) + tier label

..... 2) Risk Signals: distinctiveness / confusion / scope / evidence / geography

..... 3) Class Cluster Suggestions (best-effort, informational) + receipts

..... 4) Filing Path Explainers (direct / regional / international) – neutral

..... 5) Copy/Paste Form Drafts (stored + versioned)

..... - Template A Offering Description

..... - Template B Goods/Services drafts (narrow / balanced / broader)

..... - Template D Evidence Log

..... - Template F Monitoring Reminder text

..... 6) Submission Checklist (tailored by mark type + use status + geos)

..... 7) Monitoring Reminders (calendar-friendly outputs / reminder blocks)

..... 8) Enforcement Viability Scoring (platform-based; documentation-driven)

› V4ULT – UNIVERSAL ARCHIVE (EXPANDED)

..... Universal timeline across engines (dRANb / brandL / 4IELD / 4TRESS)

..... Artifact bundles: Decision Pack + Identity Pack + Field Pack + Readiness Pack

..... Share controls: prompts hidden by default

..... Audit Mode: receipts + stability index at lock time

..... Lock/Branch: immutable locks; edits create a new branch

..... Receipts expansion (every run logs)

..... - Run Ledger engine, route label, settings, run ID, timestamps

..... - Prompt Pack sanitized system + user prompt + inputs

..... - Assumptions assumed vs user-provided vs verified-by-user

..... - Delta Report what changed since last run & why

..... - Evidence Pins user-provided links/files/checks (not scraped)

..... - Outcome Summary what worked, what didn’t, gaps, risks, next moves

› UX UPGRADE – MODEL HEALTH GAUGE (BEST-EFFORT)

..... Signal Flow Board: 8 track lanes + top meter

..... Tracks: Coherence / Constraint Fit / Evidence Coverage / Consensus
..... Novelty vs Clarity / Risk Surface / Policy-Safety / Actionability
..... Status: Stable / Caution / Unstable + trigger banner (single best fix)

 › UX UPGRADE – TWIN MODE (SETTINGS-CONTROLLED)

..... Guide Mode (default) neutral coach voice
..... Mirror Mode (opt-in) adapts to user-approved phrasing
..... Avatar Mode (opt-in) UI stub only; synthetic label + revocation

 › UX UPGRADE – MEDIA KIT (IN-FLOW TEACHING ASSETS)

..... Micro-videos + image cards (placeholders + upload slots)
..... Formats: 6–12s in-flow, 30–60s recap; 16:9 + 9:16 variants
..... Topics: ownable vs clear / spelling friction / domain ladder / field crowding

 › DATA MODEL DELTAS (PART III)

..... Added: ProtectionProfile, ReadinessRun, ReadinessSignal, ClassSuggestion,
..... FormDraft, SubmissionChecklistItem, EnforcementViability,
..... Extended: V4ULT_ArchiveEvent (prompt pack, assumptions, delta, evidence pins,
..... stability index, lock/branch, artifact bundle, share token)

 › CLEARANCE

..... Ready for Part 5 on your signal.

.

Benediction: Preparedness over posturing. Receipts over rhetoric.
