
BRANDLE OS – PART V IMPLEMENTED

“Enterprise trust is built on reversibility.”
“Safety is a structure, not a slogan.”

PART V – GOVERNANCE + OPS CADENCE + PROMPT VAULT (ENTERPRISE GRADE)

› SOURCE INGESTED

..... Part 5 of 5.md

› BUILD INITIATED (PART V INTEGRATION)

..... projectId 89d53020-feae-4084-b26c-f0031952266e

..... url lovable.dev/projects/89d53020-feae-4084-b26c-f0031952266e

› GOVERNANCE & SAFETY (ENTERPRISE GRADE)

..... 14.1 Kill Switch “Right to Oblivion” (scrub personal/biometric artifacts)

..... 14.2 Data Stratification ... Tier A Ephemeral / Tier B Persistent / Tier C Immutable

..... 14.3 Agent Permissions 6ROXY spend gate: >\$500 requires human approval

..... unless Autonomous Mode is explicitly toggled ON

..... Implementation notes

..... ☐ Biometric features remain opt-in concept stubs unless enabled

..... ☐ Oblivion deletes artifacts + revokes share tokens; immutable logs are anonymized

..... ☐ Tier C audit logs are append-only (contracts/spend approvals never deleted)

› OPS CADENCE (SCHEDULED FRAMEWORK)

..... Mon–Fri 08:00 Morning Brief | 18:00 Daily Recap

..... Saturday 10:00 Week in Review

..... Sunday 20:00 Look Ahead

..... Quarterly War Room (5-year alignment)

..... Implementation

..... - Seeded schedules stored in OpsEventSchedule

..... - Manual brief/recap generators + templates

..... - Optional .ics export + reminder blocks

..... - Every run logged to V4ULT as OpsCadenceEvent

› PRODUCTION PROMPTS – THE VAULT (READ-ONLY)

..... Canon prompt artifacts stored as immutable versions

..... - dRANb generation prompt

..... - brandL generation prompt

..... - 4IELD generation prompt

..... - 4TRESS generation prompt

..... - Market research prompt

› SYSTEM AUDIT + FINAL EXECUTION CHECKLIST (INTERNAL)

..... Admin-only pages for audit metrics + system go/no-go checklist

› GALAXY CONTINUITY

..... 7-app galaxy referenced in canon: dRANb, brandL, 3XEC, 4IELD, 4TRESS, 5ITE, 6ROXY

..... Implementation (Part V): governance layer + 6R0XY policy gates now live
..... 3XEC + 5ITE remain stubs until specified in a future spec pass

› CLEARANCE

..... Part 1–5 ingestion complete. Ready for a single unified “Master Release Pack.”
