› 01 dRANb Identity

..... Galaxy Feature “The Mirror” (avatar visualizes market scan)
..... Intake optional audio intake (prosody → tone shifts)

› 02 brandL Assets

..... Galaxy Feature “The Land Grab” (domain/handle strategy ladder)
..... Note MVP = best-effort likelihood (no scraping) unless user-verified

› 03 3XEC Operations

..... Galaxy Feature “The Dojo” (scenario training) + “Black Box” (post-mortems)
..... Scope legal/finance guidance is procedural; no legal advice claims

› 04 4IELD Strategy

..... Galaxy Feature “The Spy” + “The Void” (whitespace map)
..... Scope MVP uses user-provided competitor lists; no scraping

› 05 4TRESS Protection

..... Galaxy Feature “Self-Healing Assets” + “The Citadel” (defense visualization)
..... Scope non-legal readiness only; proof-gated language

› 06 5ITE Product

..... Galaxy Feature “The Construct” (auto-build functional web widgets)
..... Scope MVP = template injection + code generator placeholders

› 07 6ROXY Avatar

..... Galaxy Feature “Mandatory Clone” + “A2A Protocol” + “The Pulse” cadence
..... Governance explicit consent envelopes; revocation; synthetic labeling

— THE “SUPERMAN” UX (DIRECTOR / ACTOR) —

› PRINCIPLE

..... User = Director AI = Actor Bureaucracy becomes cinematic
..... Forms → scenes decisions → artifacts trust → receipts

— GOVERNANCE & SAFETY (ENTERPRISE TRUST LAYER) —

› NON-NEGOTIABLES

..... Permission Envelope no legal/financial action without explicit approval
..... Kill Switch “Right to Oblivion” deletes likeness/model data
..... Data Stratification Ephemeral (raw) | Persistent (weights) | Immutable (audit)

..... Agent Limits transaction caps + admin-only autonomy toggles

— MONEY (SCENARIO MODEL – NOT A PROMISE) —

› PRICING TIERS (CANON)

..... Scout Free (data/identity opt-in as value exchange)

..... Squad \$49/mo

..... Empire \$199/mo

› YEAR-1 MODEL (GIVEN ASSUMPTIONS)

..... Growth spend \$2,500–\$5,000 / month marketing budget

..... Break-even claim treated as scenario; must be validated by CAC/LTV data

— OPS CADENCE (“THE PULSE”) —

› ROUTINE (HARD-CODED)

..... Weekdays Morning Brief + Daily Recap

..... Saturday Week in Review

..... Sunday Look Ahead

..... Quarterly War Room

— VISUAL ASSET PROMPTS (SOURCE CANON) —

› NOTE

..... Source includes emoji in one prompt; system standard replaces emoji with tokens.

› PROMPTS (STANDARDIZED TOKENS)

..... Virtual HQ isometric 3D futuristic glass startup HQ, dark mode, neon accents

..... “Slap” Meme two 3D suit avatars, comedic slap motion blur, floating tokens [pact] [hand] [shock]

..... “Mirror” UI high-tech dashboard, wireframe face scan, overlay text “IDENTITY MATRIX LOADING...”

— IMPLEMENTATION ALIGNMENT (BRANDLE OS → BRANDLE METAVERSE) —

› PHASING (SAFE, BUILDABLE)

..... Phase 1 BRANDLE OS (dRANb/brandL/4IELD/4TRESS + V4ULT)

..... Phase 2 3XEC (Dojo + Black Box) as opt-in training module

..... Phase 3 5ITE (template injection + widget generator)

..... Phase 4 6ROXY (avatar layer) behind explicit consent + kill switch

› HARD COMPATIBILITY RULES

..... “Best-effort + confidence” language everywhere

..... No scraping MVP availability is heuristic unless user evidence provided

..... 4TRESS stays non-legal .. never generate threats/C&D letters

..... Any A2A actions always permission-enveloped + auditable

.

Benediction: myth without governance becomes a liability. myth with receipts becomes a platform.
